OFFICE : Floor plan for communication area

We'd like to focus on office design and share a few floor plans featuring our TZ series.

Vol.1 Communication Area

With the rise of new work trends like telecommuting, the concept of the office is evolving. The chance for direct communication with colleagues and business partners, once taken for granted, has gained significance amid the COVID-19 pandemic. Now, the office is increasingly seen as a vital 'communication hub.' It's transforming into a key space that fosters face-to-face interactions and collaborative idea generation.

TAJIMA's 'TZ Series,' featuring mid- to high-end carpet tiles, is primarily designed for the modern office. Take a look at some floor pattern examples tailored for the new normal office setting.

*Pattern diagrams are for reference only. The scale and appearance may vary depending on the space, so please be sure to check the actual samples when considering the adoption of the carpet.

*Please check the direction of carpet application on each pattern drawing.
