

TZ Series Carpet Tile Pattern File Vol.2

OFFICE : Floor patten in entrance

We'd like to focus on office design and share a few floor plans featuring our TZ series.

Vol.2 Entrance

The office environment is undoubtedly experiencing a transformation due to evolving work styles and the impact of the COVID-19 pandemic. In this article, we present a floor pattern that specifically emphasizes the entrance.

As a company invests more effort into fostering a creative co-creation space that promotes active communication among its members, the office increasingly mirrors the unique perspective of the company. These offices are highly appealing to those working within, cultivating an environment that not only attracts individuals to work there but also nurtures partnerships with the company. Notably, the office entrance serves as the face of the company.

In this article, we focus on such office entrances. TAJIMA's 'TZ Series,' featuring mid- to high-end carpet tiles, is primarily designed for the modern office. Take a look at some floor pattern examples tailored for the new normal office setting.

*Pattern diagrams are for reference only. The scale and appearance may vary depending on the space, so please be sure to check the actual samples when considering the adoption of the carpet.
