

TZ Series Carpet Tile Pattern File Vol.3

OFFICE : Floor pattern for meeting room

We'd like to focus on office design and share a few floor plans featuring our TZ series.

Vol.3 Meeting room

What people expect from offices is certainly undergoing a period of change following the COVID-19 pandemic and work style renovations. In this article, we propose floor patterns focusing on meeting rooms.

In today's working environment, remote work is becoming increasingly prevalent, making face-to-face meetings and the opportunity to meet people more valuable than in previous periods. While online meetings have become the norm, meeting rooms are not restricted to only face-to-face communication.

The meeting room needs to provide a creative setting for valuable face-to-face discussions, offering a space where people can focus without undue tension. On the other hand, while online meetings have the advantage of convenience, it is equally important for the virtual space to be suitable for business.

Considering the current trends surrounding meeting rooms, we are introducing floor patterns specifically tailored to meeting rooms that align well with the characteristics of our TZ series.

*Pattern diagrams are for reference only. The scale and appearance may vary depending on the space, so please be sure to check the actual samples when considering the adoption of the carpet.

*Please check the direction of carpet application on each pattern drawing.
