

TZ Series Carpet Tile Pattern File Vol.4

Extra edition - HOTEL : Floor pattern for office

As a special edition, we'd like to focus on hotel design and share a few floor plans featuring our TZ series.

Vol.4 Hotel

In Vols.1 through 3, we have introduced some floor plans for various spaces under the theme of offices, and this time we will present you floor patterns for hotels.

In recent years, hotel styles have been diversified, creating spaces based on a variety of concepts. Our TZ Series carpet tiles are characterized by their high quality, providing a sense of luxury in our extensive lineup.

You can choose carpet tiles that embody quality and are best suited for creating spaces in line with your concept. For example, we offer tiles with nature-derived design motifs that are suitable for establishing a calm atmosphere, as well as those with a casual design, fostering an environment for people to communicate with each other, and so on. Please take a look at our TZ series, and we hope you can select the best option to complete your vision.

*Pattern diagrams are for reference only. The scale and appearance may vary depending on the space, so please be sure to check the actual samples when considering the adoption of the carpet.

*Please check the direction of carpet application on each pattern drawing.
