

[TOPIC]New "LAY FLAT TILE NO WAX" with more matte finish. All products have been renewed and the number of colors has been increased to 81 items.

LN-1719 , TZ08-642 (TAPIS MONOCHROME TWEED)

Loose lay tiles are increasingly popular for their easy installation and maintenance, finding use in various spaces such as offices with raised floors. In recent years, The 'No WAX' maintenance type has gained significant popularity, reflecting a trend seen in vinyl flooring sheets. Furthermore, the COVID-19 pandemic has prompted shifts in work styles, leading to greater demand for versatile space solutions. Consequently, expectations for products have also risen.

To address these needs, we at TAJIMA are excited to announce the launch of a new and thoroughly updated version of our 'LAY FLAT TILE NO Wax' brand. While keeping stain resistance and ease of cleaning for no-wax office maintenance requirements, we have enhanced the UV coating on the tile surface to achieve a lower gloss, meeting the demand for creating high-quality spaces. Additionally, we have expanded our color palette to include both new and popular colors inspired by the latest trends, providing a comprehensive selection of colors and patterns to choose from.

The product concept is "Designing Communication."

コミュニケーションをデザインする

Designing Communication

Upper Left: LN-1708 , LN-1709 Upper Right: LN-LN-1731 , LN-1734 , LN-1735 , TSD-365 , TSD-366 , TSD-367
Lower Left: LN-1208 , LN-1706 , LN-1721

The LAY FLAT TILE series continues the concept of 'Designing Communication.' For instance, it aims to enhance the quality of communication by providing a real space for members to gather, facilitating intensive discussions or casual face-to-face interactions. We design the space from the floor up and then design the communication itself within that space accordingly.

NO WAX maintenance reduces cleaning labor and costs.

■ Stain resistant and easy to clean

Flooring	Before soiling	After soiling → After cleaning
LAY FLAT TILE NO WAX		 Easy to clean
Ordinary UV coating		

Test method (original, in-house testing): A standardized substance was applied to the surface of flooring, flooring was wiped with a damp cloth after drying, and the level of remaining staining was observed.

The LAY FLAT TILE NO WAX with UV coating is stain-resistant and makes it easy to remove stains, maintaining the floor's beauty over a long period with just daily cleaning. This significantly reduces maintenance time and costs. Additionally, it lowers electricity and water consumption during waxing and cleaning, reducing environmental impacts such as CO₂ emissions and liquid waste.

A wide variety of colors, patterns, and four different sizes are available to meet the needs of a wide range of space creation.

LAY FLAT TILE NO WAX L-shape Tile Edge

Top: LN-1221 , LN-1222 , LN-1725 Bottom: LN-1203 , LN-1226

Standard colors: 5 colors

L-shape Cut

During installation, please position the L-shape cuts correctly in relation to the surrounding tiles.

In addition to the existing standard patterns, we've introduced popular patterns suitable for various combinations, as well as expressive trend patterns. The well-received 'Mortar' and 'Embedded Concrete' patterns (shown in the photo above) have been enhanced to version "~2" through adjustments to shading and other aspects, resulting in a more natural finish. Additionally, our new 'Cherokee Oak' pattern (featured in the bottom photo) offers a balanced, moderate natural look with just the right amount of wood grain texture. Apart from the 150mm/200mm x 1,000mm and 500mm square sizes, we also offer a larger 1,000mm square size. Furthermore, we provide 'LAY-FLAT TILE NO-WAX L Joints' in limited colors and patterns, featuring L-shaped joints pre-processed on two sides of the 500mm square tiles. For further details, please contact to local Tajima distributors.

Expanding floor design possibilities by combining with carpet tiles

Upper Left: LN-1708 , LN-1709 Upper Right: LN-LN-1731 , LN-1734 , LN-1735 , TSD-365 , TSD-366 , TSD-367
Lower Left: LN-1208 , LN-1706 , LN-1721

LAY FLAT TILE NO WAX and our carpet tiles are designed so that you don't notice the level difference when you step on them at the same time, allowing them to be used together to demarcate areas in a single space. The floor design can be switched according to the role of the space for zoning, or the characteristics of each can be utilized to use LAY FLAT TILE NO WAX in café spaces that require ease of maintenance and carpet tile in office spaces that require livability, etc. TAJIMA offers a wide range of carpet tile products, from standard to design and high-grade types, so be sure to explore our selection.

The LAY FLAT TILE NO WAX catalog provides a wealth of content, including examples of office installation.

The catalog is primarily targeted towards office users and designers, showcasing various installation layouts for different spaces such as work areas and refreshment zones. In addition to LAY FLAT TILE NO WAX, it also features other products like loose lay tiles with rich textures, carpet tiles, and more. We hope it can serve as a valuable reference for a wide range of office designs.
