 Flame Retardant Property Performance Test Number E1220036

※The value is our standard value and differ from measured value.

Installation

Subfloor	Adhesive
Mortar, Raised floor	Anti-slip adhesive

Super Heavy Commercial Use
Made with Recycled Vinyl
Low VOCs
Antistatic
Factory-based Recycling

Notes

- The composition of raw materials is different from our composition tile "MORTALIKE", so there is a difference in the way the pattern appears.
- Unevenness of subfloor, depending on its degree, may appear on the floor material surface.
- UV coating prevents initial staining to some extent. However, product focus is on expressing mortar. Therefore compared to our standard coating, stains and scratches are likely to be noticeable. Regular appropriate maintenance according to installed place should be performed.
- Please install the product in areas where wiring change work is not expected. In case it is needed to lifting the product up after installation, use a suction tool and lift it slowly. It is recommended that spares is stored.

"MORTALIKE" is a composition tile which has been well received by our customer as a flooring material which realistically express the mortar like texture.
